As mental health professionals who have examined the respondent, the petitioners allege that:

1. Respondent is mentally ill, because:

"Mental illness" means an organic, mental, or emotional impairment that has substantial adverse effects on a person's ability to exercise conscious control of their actions or ability to perceive reality or to reason or understand; intellectual disability, developmental disability, epilepsy, drug addiction, and alcoholism do not per se constitute mental illness, although persons suffering from these conditions may also be suffering from mental illness. AS 47.30.915.

2. Respondent is suffering an acute behavioral health crisis, because:

3. As a result of being mentally ill and suffering this behavioral health crisis, Respondent is:

AS 47.30.915.

Gravely disabled under AS 47.30.915(11)(A), AS 47.30.915(11)(B), because:

"Gravely disabled" means a condition in which a person as a result of mental illness (A) is in danger of physical harm arising from such complete neglect of basic needs for food, clothing, shelter, or personal safety as to render serious accident, illness, or death highly probable if care by another is not taken; or (B) is so incapacitated that the person is incapable of surviving safely in freedom. AS 47.30.915.

- 4. Respondent's acute behavioral health crisis is likely to resolve during admission to a crisis residential center (CRC).
- 5. _____ is an appropriate CRC for Respondent's condition and has agreed to accept Respondent.
- 6. Respondent has been advised of the need for, but has not accepted, voluntary treatment.
- 7. The following persons are prospective witnesses, some or all of whom will be asked to testify in favor of the detention of Respondent at the hearing:

8. Additional Information:
