Case No. 3AN-22-07404CI

ORDER

On September 20, 2022, the court heard the parties' arguments regarding whether to grant a preliminary injunction. Related to that motion, the Division provided the court with information on how ranked-choice voting would work if a candidate were to be "withdrawn" after ballots were printed but prior to certification. The court requests additional information from the parties on whether it would be feasible for the Division to delay certifying the results from House District 27 until after trial in this case without impacting certification of the other results of the general election. If that is possible, then the court also requests information regarding the requirements for when House District 27's results would ultimately need to be certified. A response to this request should be filed by 10:00 a.m. on September 22.

DONE this 21st day of September, 2022, at Anchorage, Alaska.
